NOW OPEN!

Our unique program specializes in after-school and summer childcare for children with developmental disabilities including but not limited to Autism, Down Syndrome, Cerebral Palsy, Epilepsy and Intellectual Disabilities. We offer a high quality, small family home childcare experience for older children and teens (ages 12-18) with special needs, as well as their siblings. Private payment arrangements can be made, but we prefer to minimize the costs on the parents by having them seek funding from other sources such as TCRC.

Transportation to/from the childcare program must be provided by parents, primary caregivers, or school buses. Occasional community outings will be organized with Ohana Clubhouse providing all transportation. Snacks will be provided each afternoon, dependent upon special dietary restrictions. Families must provide lunches for each child on school closure days and during summer care.

Our program offers close supervision with a 1:4 staff to child ratio, and additional college interns. Our home is accessible for children who use wheelchairs or walkers. To maintain the safety of all children in care, children who exhibit aggressive or loud behaviors may not be suitable for our program. Once the daycare reaches a capacity of five children, those requiring toileting assistance may be considered for admission. Each child will be assessed individually and all attempts made to accommodate their needs.

Staff: John is the son and Sharon is the mom. John is pursuing his MSW. He has years of experience as a Respite Caregiver helping teens with Autism. Sharon has over 25 years of experience specializing in Regional Center services and Respite Care as the founder of Channel Islands Social Services. Our program is a training site for college students to gain experience with special needs.
